

CLAIMS

Having thus described my invention, I claim:

- 1 1. A fishing leader holder comprising:
2 a hollow cylindrically-shaped holder having a first end and a second end; and
3 said holder having at least one window.

- 1 2. The fishing leader holder of claim 1 wherein:
2 said holder is made of PVC pipe.

- 1 3. The fishing leader holder of claim 1 wherein:
2 said first end of said holder is frayed; and
3 said second end of said holder is corked.

- 1 4. The fishing leader holder of claim 3 wherein:
2 said holder has at least one hole.

- 1 5. The fishing leader holder of claim 1 wherein:
2 said first end of said holder is frayed; and
3 said second end of said holder is frayed.

- 1 6. The fishing leader holder of claim 5 wherein:
2 said holder has at least one hole.

- 1 7. The fishing pole holder of claim 1 wherein:
2 said first end of said holder is corked; and

3 said second end of said holder is corked.

1 **8.** The fishing leader holder of claim 7 wherein:
2 said holder has at least one hole.

1 **9.** The fishing leader holder of claim 1 wherein:
2 at least one end of said holder has a removable cap.

1 **10.** The fishing leader holder of claim 3 wherein:
2 at least one end of said holder has a removable cap.

1 **11.** The fishing leader holder of claim 5 wherein:
2 said first end of said holder has a removable cap; and
3 said second end of said holder has a removable cap.

1 **12.** A method of using a fishing leader holder comprising a hollow
2 cylindrically-shaped holder having a first end and a second end; and
3 said holder having at least one window, said method comprising the
4 steps of:
5 a. feeding a leader attached to a hook through the at least one
6 window on the holder; and
7 b. securing the hook onto the holder.

1 **13.** The method claimed in claim 12 further comprising the step of:
2 placing a removable cap on at least one end of the holder.
